FATP AD 2.20 | LOCAL AERODROME REGULATIONS

1) RWY 01 & 19 Left hand circuits to be flown
2) RWY 10 & 28 Right hand circuits to be flown
3) ACFT must adhere to runways and taxiways and park in the parking area
4) Use of AD by Microlights is permitted
5) Parachuting and gliding activity in the area
6) Fixed wing circuit height: 6500FT and then join the active circuit on crosswind.
7) Fixed wing circuit height: 8000FT Helicopter circuit height: 6500FT.

FATP AD 2.22 | Flight Procedures

CIRCUIT PROCEDURES AT AERODROME

a. Powered ACFT must make all CCT to the west of the AD when RWY 01/19 is in use.
RWY01 – Left-hand circuit
RWY19 – Right-hand circuit

b. Powered ACFT must make all CCT to the north of the AD when RWY10/28 is in use.
RWY10 – Left-hand circuit
RWY28 – Right-hand circuit

c. During calm wind conditions RWY01 must be used by all powered ACFT.

d. Gliders must make all CCT to the east of the AD when the glider strip 19/36 is in use.

e. Gliders must make all CCT to the south of the AD when the glider strip 09/27 is in use.

f. During calm wind conditions glider strip 36 must be used by all gliders.

g. Pilots of powered ACFT, when joining the CCT at AD are advised to avoid the glider CCT at all times. When gliding is in operation at AD FABL ATC will warn all relevant ACFT of the said gliding activities.

h. Whenever RWY01 is used by powered ACFT and glider strip 09 is used by gliders, all pilots are specially requested and advised to ensure that all turnouts are made timeously before entering the FABL CTR. When RWY28 is in use by powered ACFT all pilots are to ensure that their circuits are adjusted to avoid the FABL CTR.

i. As there are no taxiways leading to RWY28, back tracking will have to be done when RWY10 is in use. Pilots are therefore advised to exercise extreme caution and patience whenever RWY10/28 is in use.

FANS AD 2.20 Local Aerodrome Regulations

(1) TWY to the East of HLDG point adjacent to apron may not be utilized by ACFT whilst another ACFT occupies RWY 04/22 or is established on an APP, LDG and TKOF are prohibited whilst any other ACFT occupies the TWY east of HLDG point.
(2) All aircraft parking on the main apron area from the taxiway leaving RWY 04/22 at the threshold, must park as follow:
- Nose of the aircraft to the centre towards the runway and the tail facing in a SW direction towards the maintenance hangers.
- This is to minimise the extreme noise factor towards the maintenance and terminal areas. Parking in this manner will require minimum power to taxi due to the aircraft being parked on a very slight downhill.

FANS AD 2.22 Flight Procedures

(1) All IFR traffic from FANS to call FAKN Approach on frequency 119.3 MHz before start-up for joining clearance. If radio contact cannot be made then pilots are to contact Kruger Mpumalanga Tower on Tel: (013) 753 7503/7511 2017 before start-up.
MON-SUN 0500-1700
(2) All VFR traffic departing FANS are to contact FAKN Approach on 119.2 MHz, for joining clearance, before entering the FAKN CTR or the TMA.

FANS AD 2.23 Additional Information

1) Pilots to exercise caution when entering the TWY due to presence of vehicles and personnel.
